**AVOID BORING &
CHOOSE DARING
FOR YOUR NEW
BATHROOM**

Our Aquaflo® Linear Water Grates have the kind of style and class that others can only dream about. Who knew water drains could look so good.

Make the right decision, choose Aquaflo®.

Form and function come together at last

All within a custom, made-to-order package. Aquaflo® Linear Water Grates aren't limited to the bathroom, applications include balconies, terraces, pools and more. Our anodised aluminium and UV stable polymers are hard-wearing and long-lasting.

“ DESIGN THE BATHROOM OF YOUR DREAMS WITH AQUAFLO ”

Sleek, elegant and functional...

Aquaflo® Linear Water Grates have been engineered specifically with flexibility and customisation in mind. The pipe outlet can be installed at any point along the length of the water channel, ensuring an effortless connection every time.

The cover plate is removeable, allowing easy access for maintenance and cleaning. As standard, a brushed aluminium cover plate is included in each Aquaflo® kit. You can opt to upgrade to our new matte black or choose from a number of unique laser-cut stainless steel designs, each pictured below.

Alternatively, the brushed aluminium and matte black cover plates can also be installed with a matching tile insert to create a stunning and seamless effect. Visit our website to visualise this effect with a number of tile choices.

Our Aquaflo® range is designed to work together with our Insitu® Panelling Systems and our Nero® Plumbing Solutions. These can be purchased together in kits and are available in a huge range of sizes and styles.
