## Cirque Series

Custom sizing made to suit any requirement.

INSITU Systems is a complete graded panelling system designed to meet the needs of specific shower base and balcony requirements, which arrive onsite as a complete package including drainage flange, ready to install. INSITU Systems drastically reduces downtime during construction and elimination of pre-install screeding.

## Custom Made to suit any requirement

- Pre-manufactured to size
- Compatible with most solvent free products
- Pre-fabricated to suit plumbing products with precision
- Profile heights vary depending on length, width and model
- Pre-sealed and waterproofed in controlled factory conditions
- Machined with accurate falls (shower bases 1:60 – 1:80 / balconies 1:100)
- Any shape, size, style, arrangement. Choose from standard options or customise
- Additional acoustic underlay can be added to underside of INSITU panels prior to delivery
- Complies with the AS/NZS 4858:2004 and exceeds the AS3740 requirements set out under 'Waterproofing Wet Areas' codes.

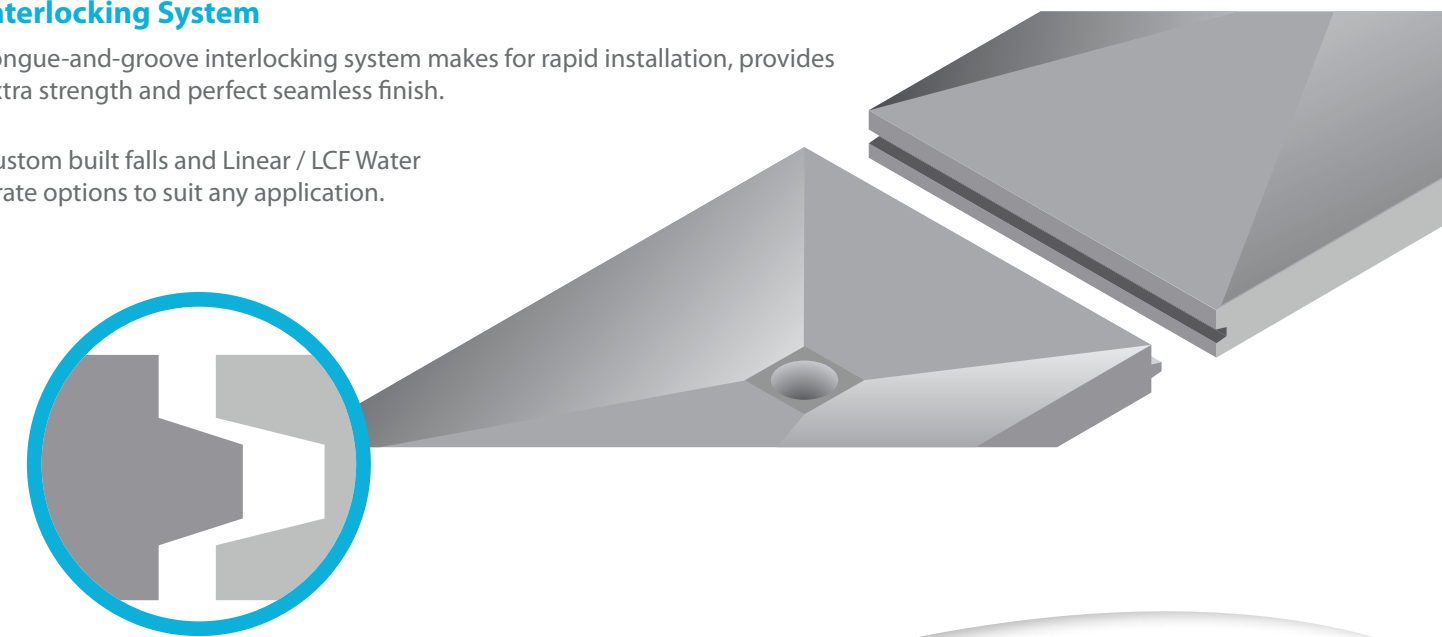

## Custom made floor substrates with falls to suit any requirement

A fast, stylish solution for Balconies, Terraces, Patios, Planter Boxes and all interior and exterior Wet Area Floors. Ideal for light weight construction applications when weight restrictions apply.

## Interlocking System

Tongue-and-groove interlocking system makes for rapid installation, provides extra strength and perfect seamless finish.

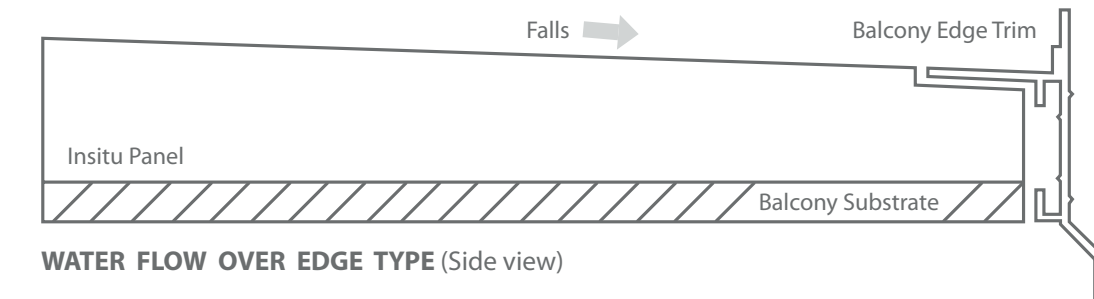

Custom built falls and Linear / LCF Water Grate options to suit any application.

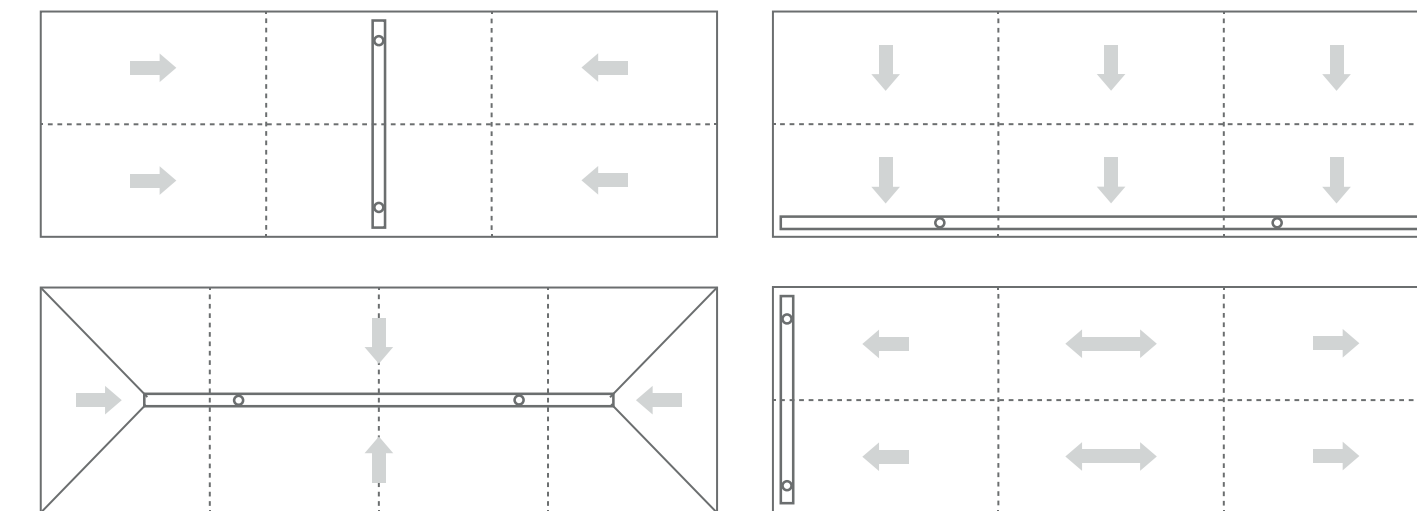

## Suitable Finises

## Suitable Substrates

WATER FLOW OVER EDGE TYPE (Side view)
